## About Me

Frontend Developer with a strong foundation in React.js and a growing background in data analysis. Passionate about creating responsive, user-friendly applications that prioritize performance and accessibility. Skilled in delivering clean code, improving user experience, and working effectively within cross-functional teams.

## Skills

- HTML5
- CSS3
- JavaScript
- React.js

- Python (basic)
- NumPy
- Matplotlib
- SQL

## Education

### Bachelor of Science in Computer Science

University of Engineering and Technology (UET), Mardan | Oct 2019 – June 2023

- CGPA: 2.9/4.0
- Final Year Project: Hostel Management System (HTML, CSS, JS, PHP, MongoDB)

## Experience

### Eziline Software House, Pakistan

Jan 2023 – May 2024

- Developed and maintained user interfaces using React.js.
- Optimized web performance, reducing page load times by 30%.
- Contributed to a 15% increase in website traffic through improved UI/UX.

### Data Analyst Intern

Inotech Solution Software House, Pakistan

Nov 2024 – Apr 2025

- Conducted data analysis using Python to derive actionable insights.
- Automated reporting tasks, reducing manual workload.
- Contributed to improved operational efficiency with data-driven solutions.

### Projects:

- Hostel Management System
- Built a full-stack system with MongoDB backend and responsive frontend (HTML/CSS/JS).
- Streamlined administrative tasks like room allocation and fee tracking.
- Data Analysis Automation
- Developed Python scripts to clean and analyze sales data, reducing processing time by 40%.

### Key Improvements:

- Clearer Structure: Separated skills into categories (Frontend/Data Analysis/Tools).
- Stronger Impact: Added metrics (e.g., "30% faster load time") to quantify achievements.
- Modern Format: Removed redundant dates (e.g., "2020-2023" under education).
- Concise Summary: Replaced "About Me" with a punchier "Professional Summary."
- Projects Section: Highlighted technical contributions.
